

THE MOST POWERFUL LINE OF STANDBY GENERATORS

Engineered with NGMax™

When choosing a standby generator, check the specifications closely. Only Briggs & Stratton PowerProtect generators feature NGMax™ technology, delivering up to **13% more power on natural gas** than the competition. For homes with natural gas, Briggs & Stratton is the ideal choice.

Superior Motor Starting

Best motor starting in the industry to ensure smooth operation of your large appliances during startup. Up to **68% more starting power** than the competition.

Less Weekly Disruption

Short **16-second Eco-Cise weekly test** reduces noise and fuel consumption, while ensuring your generator is ready for a power outage.

Smaller Footprint

The upright design of our PowerProtect DX13kW generator gives you reliable backup power with a **39% smaller footprint** than the competition. It fits easily in tight areas, allowing for more installation options around your home.

- PowerProtect PPD13 (28.5" x 25.5")
- Generac (48.5" x 25.1")
- Kohler (36" x 28")

Longest & Most Comprehensive Warranty

10 years on parts, labor and travel. The best standard warranty in the standby power industry and it covers the hidden costs charged by other brands (See manual for details).
